

Instructions for SCPA Clean Truck Certification

Internet browser: Must use Internet Explorer version 9 or higher or current version of Chrome or Firefox, both downloadable free from the internet. The mobile version supports Safari and Chrome.

Access: The link to the certification page is: cleantruck.scspa.com. The login and password for the certification is "Guest" and "Guest".

SCPA Truck ID: Enter the 6-digit truck code as displayed on the SCPA barcode. You may certify up to 35 trucks in one entry. The SCPA Truck ID is the code on the SCPA-issued bar code placed on each truck on the inside of the driver's door.

Email Address: Enter a valid motor carrier company email address. The SCPA may use this to provide future information regarding the Clean Truck Program. Re-enter the Email address to verify it is entered correctly.

SCAC ID: Enter your company's 4-digit SCAC identification. If you operate for multiple motor carriers, enter a valid SCAC for one of those companies.

Clean Truck: Check the Clean Truck box to confirm that all Truck IDs entered have post-1993 engines. Enter the characters as displayed in the *CAPTCHA* security box to ensure this is a valid entry. On the mobile site, enter the solution to the *CAPTCHA* math question.

Press GO! (full site) or OK (mobile site) to confirm the transaction.

The dialog box will display the number of entered IDs, the number successfully entered, and the number of IDs in error. Any in error will display in the box so they may be entered correctly.

For technical issues, please contact the SCPA Help Desk between the hours of 07:00 and 18:00, Monday through Friday at 843-577-8124 or send an email with your request to helpdesk@scspa.com.
